

FUEL × Wildcard · Fuel Platform + Fractional CFO

July 22, 2026

OVERVIEW

Industry	Outbound Campaign / Lead-Generation Agency	Legal Entities	1 (single entity, no consolidation)
Currencies	USD only	Contract Term	12 months from July 20, 2026 · quarterly billing · 3-month termination notice
Service Model	Full service — Fuel builds everything	Setup Timeline	Phase 1: Months 1–4 (Launch → Running → Completion) · Phase 2: Month 4+ (exact week-by-week plan finalized together with Wildcard after kickoff)
Custom Integrations	6	Customizations Purchased	10 (0 committed · 10 available)

Business Model: Wildcard runs outbound campaigns for approximately 25 B2B customers, billed on a retainer + per-meeting model with success fees, sourced from an internal campaign product database, scaling from 15 to 22+ people.

Business Tools: Stripe · Chase · Amex · Puzzle · Central (payroll) · Wildcard Product DB (Phase 2)

Included Modules

#	Module Name	Status
0	Basic Financials (incl. AR/AP Tracking & Reconciliation)	ACTIVE
1	Revenue Analytics — by client & campaign type	ACTIVE
2	Sales & Marketing Analytics	ACTIVE
3	Unit Economics & Profitability	ACTIVE
4	Forecasting & Scenario Planning	ACTIVE

5	Wildcard Product DB Integration (campaign-level COGS)	 DEFERRED — PHASE 2, MONTH 4+
---	---	--

Billing

Billing Plan	Setup Fee	One-Time Fees
Quarterly · \$10,000/quarter (\$8,500 Platform + Fractional CFO, \$1,500 Bookkeeping) · Starting July 20, 2026	None — no setup/implementation fee on this deal	None

Client Pain Points

- The forward-looking model blends cash payments with accrual estimates, so gross margin is directionally useful but can't be fully trusted, and there's no live cash balance view
- Invoice reconciliation is fully manual — every Stripe invoice has to be manually checked against ACH bank deposits, which breaks down at 25+ customers
- Campaign costs exist in the internal product database with real per-campaign dollar values, but don't flow into finance — profitability is estimated with flat averages instead of actuals
- All financial data — forecasting, AR tracking, COGS, CC classification — runs through one person, with no visibility for the rest of the exec team
- Credit card expense classification is only ~80% accurate; the remaining spend has no systematic rules and requires manual handoffs

Discovery Summary — Systems Identified

We connect your key data sources to enable automated and up-to-date reporting.

STANDARD DATA SOURCES

System	Purpose	Data Retrieved
Stripe	Invoicing & revenue	Invoices, campaign revenue, success/retainer fees
Chase	Bank feed	Cash balance, transactions, ACH payments

Amex	Credit card spend	CC transactions, campaign cost coding
Puzzle	Bookkeeping (AI-native ledger)	GL, P&L, Balance Sheet
Central	Payroll (recording only)	Payroll cost, headcount for 14 employees

CUSTOM DATA SOURCES

System	Purpose	Data Retrieved
Wildcard Product DB	Campaign-level COGS	Per-campaign cost, replacing flat averages with actuals — ⌚ Phase 2, via Wildcard's existing MCP/OpenAPI

Consolidation: 1 legal entity — no consolidation required ❌

✦
 Adding reports and analytics for new business directions can be done at a separate agreed price.

DISCOVERY FINDINGS

Area	Finding	Implementation Impact
Financial model	Cash and accrual data are blended in one forward-looking model	Requires separating cash-basis view from accrual P&L before forecasts can be trusted
AR	Stripe invoices are manually matched to ACH deposits	Requires bank-to-invoice auto-matching with 3d/5d/10d overdue alerting — mapping Stripe invoices to Stripe payments directly is explicitly out of scope; AR reconciliation covers Stripe invoices → bank ACH deposits only
CC classification	~80% of credit card spend is auto-classified; the rest is manual	Requires rules-based classification to close the remaining gap

Module 0 — Basic Financials (incl. AR/AP Tracking & Reconciliation)

Establishes the foundational accounting layer — three core financial statements, a standardized KPI layer, and source-system mapping — plus automated AR reconciliation between Stripe invoices and bank deposits.

STANDARD METRICS

Revenue · COGS · Gross Profit · EBITDA · Net Profit · Cash Balance · Cash Burn · AR/AP · Working Capital · AR aging by day-band (3d/5d/10d)

REPORTS

Report Name	Rows & Columns Structure
Profit & Loss	Rows: Revenue, COGS, Gross Profit, OPEX, EBITDA, Net Profit · Columns: Period, Budget, Variance
Balance Sheet	Rows: Assets, Liabilities, Equity · Columns: Current period, Prior period, Change
Cash Flow Statement	Rows: Operating, Investing, Financing · Columns: Period, Direct/Indirect
◆ AR Reconciliation Report	Rows: Open invoices · Columns: Invoice date, Bank match status, Days overdue (3d/5d/10d)

DASHBOARDS

Dashboard Name	Metrics Included	Data from Reports Included
P&L Dashboard	Revenue, COGS, Gross Profit, EBITDA	Profit & Loss
Cash Flow Dashboard	Cash Balance, Burn, Inflow/Outflow	Cash Flow Statement
AR Dashboard	Overdue by band, per-customer status (retainer vs. per-meeting)	AR Reconciliation Report

Module 1 — Revenue Analytics (by Client & Campaign Type)

Tracks revenue health by client and campaign type — adapted to Wildcard's retainer + per-meeting + success-fee model rather than standard SaaS MRR.

STANDARD METRICS

Revenue by client · Revenue by campaign type · Revenue by fee type (retainer / per-meeting / success fee) · Revenue trend vs. prior quarter

REPORTS

Report Name	Rows & Columns Structure
Campaign Revenue Report	Rows: Campaign type · Columns: Revenue, # Campaigns, Avg Fee, MoM Change
Client Revenue Report	Rows: Client · Columns: Revenue, Fee Type, Growth vs. Prior Quarter

DASHBOARDS

Dashboard Name	Metrics Included	Data from Reports Included
----------------	------------------	----------------------------

Revenue Health Dashboard	Revenue by campaign type, by client, fee mix	Campaign Revenue Report, Client Revenue Report
--------------------------	--	--

Module 2 — Sales & Marketing Analytics

Connects marketing spend and sales effort to closed revenue, tracking the outbound funnel from outreach to booked meeting to closed campaign.

STANDARD METRICS

CAC by channel · Win rate · Avg deal size · Sales cycle length · MQLs by channel · Cost per MQL/SQL · ROAS by channel

REPORTS

Report Name	Rows & Columns Structure
Pipeline Report	Rows: Stage · Columns: Deal count, value, avg age
Channel Performance Report	Rows: Channel · Columns: MQLs, SQLs, conversion %, CAC

DASHBOARDS

Dashboard Name	Metrics Included	Data from Reports Included
Sales Funnel Dashboard	Pipeline by stage, win rate	Pipeline Report
Channel ROI Dashboard	CAC, ROAS by channel	Channel Performance Report

Module 3 — Unit Economics & Profitability

Connects revenue, cost, and campaign data to show profitability per client and per campaign type.

STANDARD METRICS

CAC Payback Period · LTV:CAC Ratio · Gross Margin · Contribution Margin · Revenue per customer

REPORTS

Report Name	Rows & Columns Structure
Unit Economics Summary	Rows: Client/campaign segments · Columns: CAC, LTV, LTV:CAC, Payback, Gross Margin

DASHBOARDS

Dashboard Name	Metrics Included	Data from Reports Included
----------------	------------------	----------------------------

Unit Economics Dashboard	LTV:CAC, CAC, Gross Margin, Contribution Margin	Unit Economics Summary
--------------------------	---	------------------------

Module 4 — Forecasting & Scenario Planning

A continuously updated forecast with driver-based scenario toggles, supporting the 15 → 22+ headcount-to-cash modeling.

STANDARD METRICS

Forecast Revenue · Forecast Costs · Forecast EBITDA · Forecast Cash · Revenue by scenario · Runway by scenario · Headcount impact (15→22 mapped with cash impact)

REPORTS

Report Name	Rows & Columns Structure
P&L Rolling Forecast	Rows: Revenue, COGS, Gross Profit, OPEX, EBITDA · Columns: Actuals YTD + 12-month rolling
Scenario Comparison Report	Rows: Revenue, Costs, EBITDA, Cash, Runway · Columns: Base, Upside, Downside

DASHBOARDS

Dashboard Name	Metrics Included	Data from Reports Included
Rolling Forecast Dashboard	Forecast Revenue, EBITDA, Cash, Variance	P&L Rolling Forecast
Scenario Planning Dashboard	Revenue, Burn, Runway across 3 scenarios	Scenario Comparison Report

Total Customizations Used

0 of 10 purchased used · 10 remaining. No custom metrics or reports have been committed — per-campaign margin, the hiring model, and similar items are covered by standard module deliverables above, not customizations. Units remain fully available for anything the team identifies with Brennan.

Outside of Scope

Excluded Item	Notes
Tax filing & tax compliance	Not provided by Fuel Finance

Fraud detection	Not provided by Fuel Finance
Payroll processing	Not provided by Fuel Finance — Central continues recording only
Due diligence packages	Available as a separate add-on
Mapping Stripe invoices to Stripe payments directly	AR reconciliation covers Stripe invoices → bank ACH deposits only

Deferred / Future Scope

Module	Planned Phase	Notes
Wildcard Product DB Integration (campaign-level COGS)	Phase 2 — Month 4+	Replaces flat COGS averages with campaign actuals; connects via Wildcard's existing MCP/OpenAPI — the most complex integration in this engagement

Implementation Timeline

✦ The breakdown below reflects the two-phase structure agreed with Wildcard. The exact week-by-week plan and deliverable dates will be finalized together after the kickoff call — the phases below are the confirmed scope and sequencing, not a fixed weekly schedule.

PHASE 1 LAUNCH Month 1 • Kick-off + data access: Stripe, Chase, Amex, Puzzle • Bookkeeping onboarding • Start cash flow model — built weekly and monthly • Review AR history and patterns across 20+ clients	PHASE 1 RUNNING Month 2 • Financial model v1 — present and approve on layout • Plan vs. actual — full weekly cadence • Expense classification from CC transactions • Hiring decision model live — 15 → 22 mapped • Soft-close process introduced	PHASE 1 COMPLETION Month 3–4 • Financial model v2 review and approval • Full platform: all integrations automated • AR tracking automated for 20+ clients • Real-time dashboard live for all KPIs • Monthly close: 25 days → 10–15 days	PHASE 2 Month 4+ • Scenario forecasting: best / realistic / worst • CFO layer active for strategic calls • 🕒 Wildcard Product DB integration begins • Campaign profitability model complete
---	--	---	--

Support Phase

Following the Setup Phase, Fuel transitions into the Support Phase — continuous monitoring, optimisation, and adaptation to ensure our solutions consistently deliver value for Wildcard.

MEETING & REPORTING CADENCE

Frequency	Meeting	Summary / Output
Weekly	30-min check-in to review progress and address ongoing questions	Bullet-point status update via Slack, including updated timelines
Monthly	Books closed (target: 10–15 days, down from 25+)	AI-generated financial PDF report with key takeaways
Quarterly & Yearly	Deep-dive call with strategic performance analysis and insights	AI-generated PDF with key takeaways and forward-looking commentary

SERVICE

Feature	Description	Included
---------	-------------	----------

Customer Success Manager	Ensures delivery timelines, scope alignment, and client engagement continuity	✓
FP&A Manager	Oversees financial reporting, forecasting, and strategic insights	✓
Slack Communications	Avg response <3h, US Pacific hours	✓
Weekly Setup Plan	Initial setup roadmap with status tracking	✓
Weekly 30-min Check-in	Ongoing progress and issue review	✓
Controlling Function (monthly)	Review of data accuracy, variance analysis, and risk monitoring	✓ part of Fractional CFO scope
Controlling Function (bi-weekly)	Same as above with higher frequency	✗ weekly cadence only
Monthly Overview	Comprehensive P&L and Cash Flow review with key variances and risks	✓
Quarterly Overview	Deep-dive into growth efficiency, unit economics, and profitability trends	✓
Yearly Overview	Annual financial performance, runway, and valuation drivers analysis	✓
Forecasting Prep	Development and maintenance of all baseline financial forecasts	✓
Strategic Support	Benchmarking, scenario analysis, and financial modeling for strategic decisions	✓
Fundraising Support	Available upon request	✗
Audit Support	Pre-built templates and checklists for audit preparation	✓

! Ad-hoc R&D: Max 8 hours/month for exploratory work. Billed at tech support rate if exceeded.

CFO SUPPORT SERVICES

Feature	Description	Included
Monthly financial meeting	Live review of monthly results with the CEO/exec team	✓

Async Loom financial updates	Recorded video walkthrough of monthly financials for async teams	✓
Slack / async support	Direct CFO access via Slack — same business day	✓
Cash flow review & advisory	Reviews cash position, runway, timing of outflows	✓
Strategic decision support	Ad hoc financial analysis for major decisions	✓

Fee Structure

Wildcard's negotiated rate on the signed Order Form supersedes the earlier proposal's tiered pricing — shown here as the single agreed rate rather than a tiered comparison.

✓ NEGOTIATED RATE

PLATFORM + FRACTIONAL CFO + BOOKKEEPING

\$10,000

/quarter • \$40,000/yr

Quarterly billing • Starting July 20, 2026

12-month contract • 3-month termination notice

Payment Summary — Year 1

PAYMENT SUMMARY — YEAR 1	
Platform + Fractional CFO — Year 1, Quarterly	\$34,000
Bookkeeping — Year 1, Quarterly	\$6,000
Total paid — Year 1	\$40,000

Reconciles with signed Order Form's Total Year 1: \$40,000 ✓. Q1 invoice of \$10,000 issued, not yet paid — expected on signing.

Fuelfinance's Terms & Conditions

By signing, you agree to Fuelfinance's [Terms & Conditions](#)

- ! Services are rendered under 100% prepayment terms. In case of a payment delay of 14 days or more, Fuel reserves the right to terminate Wildcard's access and cease service provision.
- ! If you notify us of Agreement termination in a period which is less than 3 months before termination, you shall be obliged to pay all the subscription fees for the period that is left till the initial term of the Agreement, as determined in the Scope of Work. Such subscription fees shall be due within five banking days after we send you the respective invoice.

To initiate termination, contact your Manager or reach us at notice@fuelfinance.me.

Signatures

By signing below, both parties agree to the scope, timeline, and responsibilities outlined in this document. Any changes to the scope must be agreed in writing.
